

# San Diego and Imperial Counties

## Health Career Degree and Certificate Programs (Summary)\*

*White* denotes programs with no science course requirements.  
*Orange* denotes programs with one science course requirement.  
*Pink* denotes programs with multiple science courses required.

51% of college health career programs require science courses as a pre-requisite or as a program requirement (universities are not included in this percentage).

There are 98 total programs (non-university, non-graduate level) in San Diego and Imperial Counties. 39 of these are distinct programs (like items), while 21 of the 39 are unduplicated (i.e., only offered at a single location in both counties).
